

**Ann Wallace**  
Business Manager

### Areas of Expertise

- Client service
- Office Management and Co-ordination
- Event Management
- Project Management
- Spreadsheet applications design
- Data base applications design
- Business planning
- Risk management
- Program documentation
- Accounting

Ann manages our busy office, co-ordinating work schedules, travel arrangements, project milestones and events. She is passionate about delivering positive outcomes for our clients and making a difference.

Spreadsheet design is Ann's specialty and her high level of skill has enabled the development of complex feed budget systems, replacement ewe lamb selection tools, and, 'what if' scenarios to determine a range of outcomes. What is a 'what if' scenario? This is simply a way of evaluating different outcomes from varying inputs.

Ann also works on cost analysis, risk assessment and our business planning.

Ann has extensive experience in agribusiness, working for eight years for ABB Grain before joining Productive Nutrition in 2004 and she jointly manages a sheep stud operation in Kapunda.
